

CPFUMC SOUND BOOTH PLATFORM MODULE CONSTRUCTION DETAILS

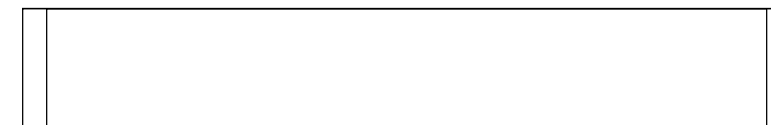

Scale: 1 in = 1 ft
nmh 21 May 2020 Rev. B

PLAN

REAR ELEVATION

SIDE

NOTES

1. Platform 2"x8" support modules are 48"x 47.5" outside dimension
2. The 47.5" dimension fits inside the Sound Booth front and side panel "shell."
3. Construct the 3rd platform panel last in case actual dimensions need to be modified to make it fit inside the Sound Booth "shell."
4. Use 3" wood or deck screws to secure the 2x8 boards in a module.
4. Modules are screwed or bolted together to make the entire 48"x143.5" platform
5. Platform module against the Sanctuary E wall will have 2.0" diam. access hole drilled for cable routing coming from the adjacent wall. See other drawings for hole location details.
